RIDMA Foundation Inc

Dear Sir/ Madam

Acknowledgement of Donations

Welikanda Covid 19 Specialized Treatment Centre is one of the main specialized COVID treatment centers in Sri Lanka and currently we have the capacity of 110 beds. As a specialized hospital, we are referred patients mainly from four intermediate care centers, where there are nearly 2000 patients. These include Punani 1, Punani 2, Gallella and Kaandakadu Intermediate Care Centers. In addition to that we accept patients directly from DGH Polonnaruwa and other surrounding hospitals.

During the 3rd COVID wave we are managing an increasing number of pneumonia patients who require respiratory support which ranges from face mask oxygen therapy, non-invasive ventilation to mechanical ventilation. Noninvasive ventilation is increasingly used throughout the world to treat COVID related lung diseases and CPAP machines play a pivotal role in that context. Currently we have a limited number of CPAP machines.

We are very pleased to acknowledge the receipt three brand new CPAP machines from you in a context where those are of immense importance. These machines will be used in treating and improving quality of care delivered to COVID 19 patients at Welikanda Specialized Treatment Center.

Thank you again and wishing you good health.

Yours Sincerely

Dr S D N Senadhira
